DESCRIPTION

Eligibility:

Individuals or teams of 2 to 4 members can participate.
This program is free for all!! 🔥

Scope:

Participants must identify and report vulnerabilities within a specified scope of applications, websites, or software systems.

Program details:

It will be a two rounds competition:
Round 1 will be related to cryptographic decryption.
Round 2 will be bug hunting session.
Your overall team score will decide the winner.

Ethical Behavior:

All participants must adhere to ethical hacking principles.

Reporting:

Vulnerabilities must be reported to the organizers at the end of the session, who will validate and give the scores accordingly.

Compliance:

Participants must comply with all legal and ethical standards, including not engaging in any activities that could harm the target systems or violate privacy laws.
